Consent Form

Hello, my name is _____ and I am from ICS. This interview is part of a study conducted by ICS in 351 schools from Butere/Mumias, Bungoma and Busia districts in order to find out about HIV/AIDS awareness and how to prevent the spread of the disease. Please feel free to ask me any question about this study.

Today I would like to ask you some questions about yourself and the father of your unborn or first-born child. Some of the questions will be very personal. You do not have to answer any question that you do not want to answer. You can stop me at any time if you do not like my questions. Whether you participate or not will not involve any penalty or loss of benefits to which you or your community is otherwise entitled.

You can be sure that your answers will remain confidential. Nobody that you know will have access to the information you will share with me. We will not share your answers with your parents, your friends or your former teachers. The interview will take about 45 minutes to complete. Would you be willing to participate?
